An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

Page 3, line 12: "silyl-disubstituted" has been changed to --silyl-disubstituted--.

Page 9, line 23: "heteroaromatoc" has been changed to --heteroaromatic--.

Page 14, line 11: the text after "monomer" has been replaced with --conveniently--.

Page 24, line 3: the text between "7.33" and "3.54" has been replaced with --(s, 2H)--.

Page 24, line 4: the text between "7.15 Hz)," and "(m," has been replaced with --1.30-0.52--.

Page 24, line 19 (counting the formula as one line): "drytetrahydrofuran" has been changed to --dry tetrahydrofuran--.

In the claims:

The status identifier for claim 16 has been changed from "(Withdrawn)" to --(Original)--.

The status identifier for claim 17 has been changed from "(Withdrawn)" to --(Original)--.

Art Unit: 1774

The specification has been amended to correct errors of a spelling and/or typographical nature. Regarding the changes to page 14, line 11 and page 24, lines 3-4, the text in the IFW is not clearly readable. The lack of clarity may be an artifact of scanning. The examiner has provided the text based on the text of pages 14 and 24 of the corresponding PCT publication.

Applicant's amendment received June 27, 2005 overcomes all grounds of rejection set forth in the Office action mailed January 25, 2005.

Since claim 1 is allowable, previously withdrawn claims 16 and 17, each of which depend ultimately from claim 1, are rejoined. The status identifiers are changed by this examiner's amendment to reflect rejoinder.

Claims 1-5, 7-19, 46 and 47 are allowed. Allowed claims 1, 2, 7, 13-19, 46, 47, 3-5 and 8-12 are renumbered as 1-20, respectively.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest a method as claimed in present claim 1.

The closest prior art references each fail to disclose or suggest at least one limitation recited in claim 1 and, absent applicant's disclosure, there is no motivation to combine the teachings of the closest prior art references with each other or with one or more additional references so as to arrive at the presently claimed method.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
